

SUMMER

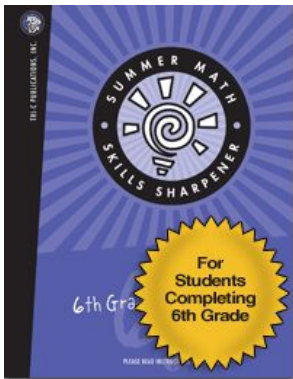

7th Grade Summer Math Assignments

This summer, in addition to reading some good books and spending time outside, you should plan to spend some time sharpening your math skills. Summer is a good time to review concepts that you found a little confusing this year and to make sure that you're ready to succeed in September. We can't wait to see you in math class at Dana Hall!

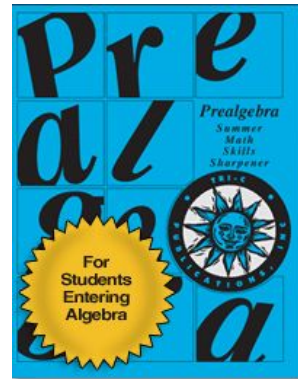

Students entering 7th grade have been recommended for one of three possible math courses. Choose the option that matches your math placement.

Foundational Pre-Algebra or Pre-Algebra:

30 minutes of work per week from the **6th Grade Summer Math Skills Sharpener** book, which reviews math skills typically covered in 6th grade. **This assignment is optional but recommended.**

Algebra I:

Complete the **Pre-Algebra Summer Math Skills Sharpener** book, which covers math skills typically taught in the Pre-Algebra course. **This assignment is required for all 7th graders taking Algebra I.**

To order the Summer Skills Sharpener books, visit the Summer Skills' website:
